SUMMARY

A developer of applications and websites in multiple programming languages, utilizing popular tools. Knowledgeable in both client-side and server-side development, with the ability to design and implement comprehensive solutions from the beginning of development through to deployment and maintenance. Capable of working in a team, managing projects, and developing innovative solutions according to the business and technological requirements of the project.

TECHNICAL SKILLS

- **Frontend: HTML, CSS, Sass, JavaScript, TypeScript, React.js, React Hooks, React Components, React Router DOM, Tailwind CSS, Bootstrap**

- **Backend: Node.js, Express.js, MongoDB, MySQL, Mongoose, Joi, Bcrypt, Jsonwebtoken**

- **Tools & Technologies: Elementor, Postman API, Axios, JWT Decode, Vite, React Hook Form, React Icons, React Toastify, React Spinners, SweetAlert2**

PROFESSIONAL EXPERIENCE

Express.js User and Card Management API
May 2024 - Jun 2024

Final Project for Node.Js Module

- Developed a comprehensive API using Express.js to manage users and cards.
- The API supports full CRUD operations and includes robust middleware for logging, error handling, and CORS.
- The backend is connected to a MongoDB database using Mongoose for persistent data storage.
- Technologies used include Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt, and dotenv for environment-based configuration.

Business Cards Web Application
Apr 2024 - May 2024

Final Project for React Module: Grade: 100 + Bonus

- Developed with React + Vite + TypeScript for efficient development with a component-based architecture.
- Implemented React Router DOM for navigation, Axios for HTTP requests, JWT Decode for authentication.
- Utilized React Hook Form for form handling, React Icons, SASS, Tailwind CSS, React Toastify, React Spinners, and SweetAlert2 for enhanced user experience.

Founder & CEO- Eicontex Apparel
Nov 2016 - Sep 2023

- Developed and maintained company's online sales store, ensuring seamless user experience.
- Utilized HTML, CSS, and JavaScript for website design and functionality enhancements.

Music Producer & Creator
2005 - Present
